Our Overall Goal...

Over the course of three years, the work of this project will build the capacity within the state of Connecticut to support informed decision-making, independent living, and a meaningful quality of life for persons with disabilities across the life span.

Our Current Activities...

- ❖ We are assisting three communities to become models of inclusion that can serve as templates for all communities in Connecticut: Bridgeport, Groton, and New Haven
- ❖ A statewide assessment of community inclusion in Connecticut
- ❖ Training opportunities on best practices in inclusion throughout the state
- ❖ Building partnerships between model communities, state agencies, and other organizations
- ❖ Facilitating efforts to expand the workforce of personal assistants
- ❖ Increasing public awareness of community inclusion

Who We Are...

Our 15-member Steering Committee is a strong partnership between consumers, family advocates and state agency personnel, helping make Connecticut a model of inter-agency and grant collaboration around long-term care and community living issues.
